

THE EADS/AIRBUS A330 TANKER PROMISES “MORE.”

ALLOW US TO TRANSLATE.

More weight. More fuel burn. More infrastructure. More maintenance.

More operational restrictions. More total costs. The list goes on and

on. On the other hand, the more efficient, more affordable, more

survivable Boeing KC-X NewGen tanker builds on a 60-year legacy

that has delivered more than 2,000 tankers worldwide. And that

means “more” real value for America’s warfighters and taxpayers.
